

This is a comparison between the Finn T90 Hydroseeder and the Easy Lawn C95 Hydroseeding Unit. This comparison is based on the specifications as published in the Finn T90 Hydroseeder Literature and the Easy Lawn C Series Brochure.

The Finn T90 Hydroseeder is less expensive than our C95 Hydroseeding Unit but with 15% larger tank and mulch capacity, a stainless steel mulch grinder, stainless steel tank, 60% larger engine and many other improved features the Easy Lawn C95 comes out as the better value and a clear winner.

Lower  Even  Better 	Finn T90 Hydroseeder	Easy Lawn C95 Hydroseeding Unit
Tank	 800 Gal Working Capacity 970 Gal Total Capacity Coated Steel	 900 Gal Working Capacity 1050 Gal Total Capacity Stainless Steel
Agitation	 Mechanical Hydraulic Powered Reversible Paddles Single Speed Direction Control Valve	 Mechanical Hydraulic Powered Reversible Paddles Dual Speed and Direction Control Valves Makes adjusting paddle speed easier
Tank Seals	 Lubricated Seals and Bearings	 Hydraulically Lubricated Bearings Reduces maintenance
Mulch Grinder	 None	 Stainless Steel Hydraulic Powered Reversible- Much faster mixing
Pump Power	 Diesel Power Clutch Engaged	 Hydraulically Powered Flow Control Valve Controlled Eliminates clutch and the need to throttle up and down engine while spraying
Deck Rails	 Optional	 Full Deck Enclosure Standard Deck can store multiple tank loads
Engine	 33.5 hp Diesel Throttle Cable	 54 hp Isuzu Diesel Electric Throttle
Mulch Capacity	 400 lbs. Turret Application 350 lbs. Hose Application	 450 lbs. Turret application 400 lbs. Hose application
Deck Coating	 Painted with Sand	 Sprayed Polyethylene Coating w/ Rubber and Sand embedded in Coating
Reel Option	 Mounted on Limited Deck Space	 Reel is mounted curb side under deck
Flush Tank	 65 Gal Plastic Mounted on Limited Deck Space Can only flush complete tank	 80 Gal Stainless Steel Stainless Steel Flush Tank is internal Can flush the pump and plumbing only or entire tank Both main and flush tank fill at the same with one connection
